APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all existing rights on the source conditions: This source is located within an area designated by the State Engineer pursuant to Sec. 4 of the 1939 Ground-Water Act (Chap. 178, Stats. 1939 as amended); therefore the State retains the right to regulate the use of the water herein granted at any and all times. It is understood that the use is non-consumptive and is for air-conditioning. It is further understood that the water be returned through a return well to the same aquifer from which it is obtained and the perforations in the return well be so constructed to meet this condition; that the system be a closed system so that no pollution can occur and that if there is faulty construction of the wells or system so as to cause pollution to the ground water, the State Engineer is empowered to cause the wells to be plugged.

The amount of water to be appropriated shall be limited to the amount
